

Custom GPS Tracking during the Paris 2024 Olympic Games

The Customer

Chabe.fr is a luxury chauffeur service provider specialising in VIP transportation for high-profile events.

The Challenge

- Olympic **road closures** and security zones disrupted navigation apps
- Chauffeurs needed **clear, real-time route access**
- Rapid journey changes required during a **fast-paced global event**

The Solution

Olympic Specific Maps: Custom map overlaps showed Olympic routes, access points, and security zones on standard maps.

Non-Intrusive Installs: Devices moved between vehicles effortlessly, without damage or disruption.

Live GPS Tracking for Event Environments: Accurate real-time updates ensured dependable routing without third-party apps.

Custom GPS Tracking during the Paris 2024 Olympic Games

Core Products Used

Lightbug Pro with docks and car chargers

- ✓ 15 years rechargeable battery
- ✓ Global LTE-M / NB-IoT + 2G fallback
- ✓ Easy to bulk charge and deploy
- ✓ Multi user access
- ✓ Tracking on-the-go via mobile app

The Results

Streamlined Routing: Drivers bypassed Olympic traffic with speed and confidence.

Accurate Journeys: VIPs arrived on time with minimal disruptions.

Full Control: Chabe.fr managed critical routes without third-party apps.
